Q1. Which of the following best expresses your view of the proposed Bill?

Page 7: Your views on the proposal

Q1. Which of the following best expresses your view of the proposed Bill?

Partially supportive

Please explain the reasons for your response
A number of High Schools and Colleges already provide free personnel hygiene products we feel that this should be extended to all educational premises and these should be freely available, without asking a member of staff.

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Nο

Please explain the reasons for your response

If this is just for people on low income, this could cause a stigma, which is something everyone is aiming to avoid.

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available to anyone; its use should be restricted (e.g. by limiting the number of products that may be claimed each month)

Please explain the reasons for your response.

If the card is restricted to people on low income or benefits then this could cause a stigma highlighting the fact that they are on low income.

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

High Schools and Colleges should provide free sanitary products, if they are to be provided free these should be available in all major Superstores.

Page 11: Schools, colleges and universities

Q5.	Do	you a	gree	that th	here	should	d be	specific	oblig	ations	on	schools,	colleges	and	universit	ies to	make
san	itary	nrod	ucts a	availa	ble fo	or free	(via	dispen	sers i	n toilet	5)?						

Yes

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g.financial barriers, unexpected circumstances, health issues)

I prefer not to say

Please explain or give an example of your experience if you feel able to do so.

We are responding as a group not as an individual

Q7. If sanitary products were available for free, which of the following would apply to you?

I prefer not to say

Please explain the reasons for your response

Again we are responding as a group, not as a individual, however females within the group did not expect to claim free products

Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

	Significant increase in cost	Some increase in cost	Broadly cost- neutral	Some reduction in cost	Significant reduction in cost	Unsure
(a) Government and the public sector (e.g. local authorities, the NHS)		Х				
(b) Colleges and universities		Х				
(c) Businesses (including suppliers/retailers of sanitary products)						x
(d) Individuals (including consumers of sanitary products)				Х		

Please explain the reasons for your response

Sanitary product manufactures would probably increase the cost of these products knowing that the Government would have to purchase these items regardless of the costs, also they may restrict the development of new or improved products if the Government were not going to purchase or provided more expressive products free of charge

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

No Response

Page 16: Equalities

Q10. What overall impact is the proposed Bill likely to have on equality, taking account of the following protected characteristics (under the Equality Act 2010): age, disability, gender re-assignment, marriage and civil partnership, pregnancy and maternity, race, religion and belief, sex, sexual orientation?

Neutral (neither positive nor negative)

Q11. In what ways could any negative impact of the proposed Bill on equality be minimised or avoided?

Products should be free and not restricted to people on low income or benefits

Page 18: Sustainability

Q12. Do you consider that the proposed Bill can be delivered sustainably i.e. without having likely future disproportionate economic, social and/or environmental impacts?

Unsure

Please explain the reasons for your response:

It could restrict the development of improved or new products if a cost factor is placed on the number of products available as free or a cost factor was placed on what products are free

Page 19: General

Q13. Do you have any other comments or suggestions on the proposal?

All Foodbanks should provided personnel hygiene products with each food parcel for female clients with them being asked for or requested, the costs could be borne by the Government.
