Q1. Which of the following best expresses your view of the proposed Bill?

Fully Supportive

Q1. Which of the following best expresses your view of the proposed Bill?

Please explain the reasons for your response

Universal provision of sanitary products Feedback from local charities has been very supportive of attempts to address period poverty with the provision of free sanitary products seen as a positive step to tackling inequality

Page 8: Universal provision of sanitary products

Q2. Do you think a universal, card-based system (modelled on the c-card system for free condoms) would be an effective means of providing sanitary products for free to those who need them?

Yes

Q3. Which of the following best expresses your view in relation to a card-based system?

The card should be available only to those on low incomes or in receipt of benefits; card-holders should have unlimited access to free sanitary products

Please explain the reasons for your response.

Include pharmacies, charities that support children, women and families and existing c-card providers

Q4. Do you have a view on which locations would be most suitable for dispensing free sanitary products (e.g. GP surgeries, pharmacies, community centres, health clinics)?

Schools, colleges and universities

Page 11: Schools, colleges and universities

Q5. Do you agree that there should be specific obligations on schools, colleges and universities to make sanitary products available for free (via dispensers in toilets)?

Yes

Page 12: Personal experience (questions 6 and 7 are for individual respondents only)

Q6. Have you ever struggled to access or afford sanitary products during menstruation? (e.g. financial barriers, unexpected circumstances, health issues)

Not applicable: I do not need or use sanitary products

Q7. If sanitary products were available for free, which of the following would apply to you?

Not applicable: I do not need or use sanitary products

Page 14: Financial implications

Q8. Taking account of both costs and potential savings, what financial impact would you expect the proposed Bill to have on:

| | Significant increase in cost | Some increase in cost | Broadly cost-neutral | Some reduction in cost | Significant reduction in cost | Unsure |
|--|------------------------------|-----------------------|----------------------|------------------------|-------------------------------|--------|
| (a) Government and the public sector (e.g. local authorities, the NHS) | | X | | | | |
| (b) Colleges and universities | | | | | | |
| (c) Businesses (including suppliers/retailers of sanitary products) | | | | | | |
| (d) Individuals (including consumers of sanitary products) | | | | | | |

Q9. Are there ways in which the Bill could achieve its aim more cost-effectively (e.g. by reducing costs or increasing savings)?

No Response

Q13. Do you have any other comments or suggestions on the proposal?

This consultation has rightly focused on the difficulties people who face poverty experience in accessing sanitary products. Midlothian Council believe that an extension to this debate needs to be initiated in our communities about access to sanitary products in toilets used by the public, such as public toilets, in bars and restaurants and other public buildings. Toilet paper, soap and hand towels are readily available in all publicly accessible toilets. Sanitary products should be viewed no differently from these products and as such, we call upon the Scottish Parliament to initiate a public consultation with a view to changing toilet regulations to ensure sanitary products are available at no charge in all toilets accessed by the public.
